(a) whether the proposal of Expressways has been mooted to facilitate speedy and smooth of goods and traffic along the important commercial routes;

(b) if so, modalities for construction of Expressways, norms/guidelines laid down for such construction;

(c) what are the proposals received in respect thereof; and

(d) the proposals which are meant for Punjab and progress with regard to them?

THE MINISTER OF STATE OF THE MINISTRY OF SURFACE TRANSPORT (SHRI JAGDISH TYTLER): (a) to (d) Government is actively considering construction of expressways to facilitate speedy and smooth flow of goods and passenger traffic. However, on account of meagre allocation of funds, it has been decided to invite private sector to construct expressways on Build-OpertateTransfer basis. Preliminary identification of routes has been done and now feasibility of the routes will need to be studied. An advertisement has been published for carrying out feasibility study of identified "Super National Highway" i.e. expressway routes. The proposals likely to be taken up will depend upon the results of the feasibility study. It is, therefore, too early to indicate any progress thereon.
